

PRESENTATION 2018

WHO WE ARE? |

Fundación Ramón Rey Ardid (FRRA) is a non-profit organization that was created in 1991 to attend the need of people affected by mental illness. After 27 years of experience, our organization has grown and increased its social presence, working with other collectives (older people, migrants, young people in difficulty, etc.). The common denominator is vulnerability and social exclusion. It works for social and labour integration of groups at risk of exclusion developing different actions: training, awareness, leisure activities, etc.

In order to attain the above mentioned goals, FRRA has established diverse agreements with official bodies and private institutions to develop assistance, prevention, rehabilitation, socio-professional integration and training activities.

WHY DO WE EXIST?
